

WEEKLY MARKET COMMENTARY

July 14, 2025

WEEK IN REVIEW

Due to the holiday weekend, last week was relatively quiet on the economic front. However, a few key indicators stood out. On Wednesday, the Federal Reserve released its meeting minutes, reaffirming its decision to maintain current interest rates while emphasizing a cautious, data-driven approach amid persistent, but easing, inflation. The committee noted signs of a cooling labor market and moderating economic growth, but stressed the need for more evidence of sustained disinflation before considering rate cuts. That same day, Crude Oil Inventories came in unexpectedly high at 7.07 million barrels, suggesting a slowdown in demand that could lead to price reductions to clear excess supply. Additionally, Thursday's initial jobless claims fell to 227,000, down from the previous reading, indicating some resilience in the labor market.

ECONOMIC AND CAPITAL MARKETS DASHBOARD

Broad Market Indices	1-week	1-month	3-month	YTD
Stock Market (Total Return)				
S&P 500	-0.29%	4.05%	17.10%	7.18%

New Home Sales (Mil. of Units, saar)	-	0.62	0.72	0.66

WEEK AHEAD

This week, we'll get a comprehensive read on inflation, labor market conditions, and the housing sector. Midweek, the release of June's Core Consumer Price Index (CPI) and Core Producer Price Index (PPI) will offer insight into inflation trends affecting both consumers and producers, with both indicators expected to show modest increases, signaling ongoing but controlled inflationary pressures. Core Retail Sales, excluding volatile auto sales, are forecasted to rise by 0.3%, reflecting steady consumer demand despite elevated prices. Labor market data will also be in focus, with the latest Continuing Jobless Claims report revealing whether

the recent downward trend in filings continues, potentially indicating a gradual softening in employment conditions. Meanwhile, the Philadelphia Fed Manufacturing Index is expected to edge into positive territory at 0.4, suggesting the manufacturing sector may be entering expansion. Finally, economists will closely watch building permits and housing starts for clues about future construction activity and broader economic confidence.

DISCLOSURES AND DEFINITIONS

Economic Indicators:

1. CPI: Consumer Price Index measures the average change in prices paid by consumers for goods and services over time. Source: Bureau of Labor Statistics.
2. Core CPI: Core Consumer Price Index excludes food and energy prices to provide a clearer picture of long-term inflation trends. Source: Bureau of Labor Statistics.
3. PPI: Producer Price Index measures the average change in selling prices received by domestic producers for their output. Source: Bureau of Labor Statistics.
4. Core PPI: Core Producer Price Index excludes food and energy prices to provide a clearer picture of long-term inflation trends. Source: Bureau of Labor Statistics.
5. PCE: Personal Consumption Expenditures measure the average change in prices paid by consumers for goods and services. Source: Bureau of Economic Analysis.
6. Core PCE: Core Personal Consumption Expenditures exclude food and energy prices to provide a clearer picture of long-term inflation trends. Source: Bureau of Economic Analysis.
7. Industrial Production: Measures the output of the industrial sector, including manufacturing, mining, and utilities. Source: Federal Reserve.
8. Mfg New Orders: Measures the value of new orders placed with manufacturers for durable and non-durable goods. Source: Census Bureau.
9. Durable New Orders: Measures the value of new orders placed with manufacturers of durable goods. Source: Census Bureau.
10. Durable Inventories: Measures the value of inventories held by manufacturers for durable goods. Source: Census Bureau.
11. Consumer Confidence (CB, 1985=100): Measures the degree of optimism that consumers feel about the overall state of the economy and their personal financial situation. Source: Conference Board.
12. ISM Manufacturing Report: Measures the economic health of the manufacturing sector based on surveys of purchasing managers. Source: Institute for Supply Management.
13. ISM Non-Manufacturing Report: Measures the economic health of the non-manufacturing sector based on surveys of purchasing managers. Source: Institute for Supply Management.
14. Leading Economic Index: Measures overall economic activity and predicts future economic trends. Source: Conference Board.
15. Building Permits (Mil. of Units, saar): Measures the number of new residential building permits issued. Source: Census Bureau.
16. Housing Starts (Mil. of Units, saar): Measures the number of new residential construction projects that have begun. Source: Census Bureau.
17. New Home Sales (Mil. of Units, saar): Measures the number of newly constructed homes sold. Source: Census Bureau.
18. SA: Seasonally adjusted.
19. SAAR: Seasonally adjusted annual rate.

Market Indices & Indicators:

1. S&P 500: A market-capitalization-weighted index of 500 leading publicly traded companies in the U.S., widely regarded as one of the best gauges of large U.S. stocks and the stock market overall.
2. Dow Jones 30: Also known as the Dow Jones Industrial Average, it tracks the share price performance of 30 large, publicly traded U.S. companies, serving as a barometer of the stock market and economy.
3. NASDAQ: The world's first electronic stock exchange, primarily listing technology giants and operating 29 markets globally.
4. Russell 1000 Growth: Measures the performance of large-cap growth segment of the U.S. equity universe, including companies with higher price-to-book ratios and growth metrics.
5. Russell 1000 Value: Measures the performance of large-cap value segment of the U.S. equity universe, including companies with lower price-to-book ratios and growth metrics.
6. Russell 2000: A market index composed of 2,000 small-cap companies, widely used as a benchmark for small-cap mutual funds.
7. Wilshire 5000: A market-capitalization-weighted index capturing the performance of all American stocks actively traded in the U.S., representing the broadest measure of the U.S. stock market.
8. MSCI EAFE Index: An equity index capturing large and mid-cap representation across developed markets countries around the world, excluding the U.S. and Canada.
9. MSCI Emerging Market Index: Captures large and mid-cap representation across emerging markets countries, covering approximately 85% of the free float-adjusted market capitalization in each country.
10. VIX: The CBOE Volatility Index measures the market's expectations for volatility over the coming 30 days, often referred to as the «fear gauge.»
11. FTSE NAREIT All Equity REITs: Measures the performance of all publicly traded equity real estate investment trusts (REITs)

listed in the U.S., excluding mortgage REITs.

12. S&P U.S. Aggregate Bond Index: Represents the performance of the U.S. investment-grade bond market, including government, corporate, mortgage-backed, and asset-backed securities.
13. 3-Month T-bill Yield (%): The yield on U.S. Treasury bills with a maturity of three months, reflecting short-term interest rates.
14. 10-Year Treasury Yield (%): The yield on U.S. Treasury bonds with a maturity of ten years, reflecting long-term interest rates.
15. 10Y-2Y Treasury Spread (%): The difference between the yields on 10-year and 2-year U.S. Treasury bonds, often used as an indicator of economic expectations.
16. WTI Crude (\$/b): The price per barrel of West Texas Intermediate crude oil, a benchmark for U.S. oil prices.
17. Gold (\$/Troy Oz): The price per troy ounce of gold, a standard measure for gold prices.
18. Bitcoin: A decentralized digital currency without a central bank or single administrator, which can be sent from user to user on the peer-to-peer bitcoin network.
