

WEEKLY MARKET COMMENTARY

August 11, 2025

WEEK IN REVIEW

The ISM Non-Manufacturing Purchasing Managers' Index (PMI) for July 2025 eased to 50.1 from 50.8 in June, marking the weakest expansion in the services sector since mid-last year while remaining just above the growth threshold of 50. Businesses reported rising costs, slower hiring, and uncertainty related to tariffs as key headwinds.

Initial jobless claims for the week ending August 2 rose by 7,000 to 226,000, slightly above expectations. The four-week moving average stood at roughly 220,750, indicating only a modest change from the prior week. Continued claims climbed to nearly 1.97 million, the highest level since late 2021, suggesting that some workers are taking longer to find new employment.

June's inflation data showed the Consumer Price Index (CPI) rising 0.3% month-over-month and 2.7% year-over-year. Core Consumer Price Index, which excludes food and energy, increased 0.2% on the month and 2.9% from a year earlier. These readings indicate that inflation pressures remain present but are not accelerating significantly.

Overall, the data portrays an economy that is still growing but at a slower pace. The services sector is barely expanding, the labor market is stable but showing signs of cooling, and inflation remains moderate yet above the Federal Reserve's long-term target.

ECONOMIC AND CAPITAL MARKETS DASHBOARD

Broad Market Indices	1-week	1-month	3-month	YTD
Stock Market (Total Return)				
S&P 500	2.44%	2.71%	13.19%	9.47%

New Home Sales (Mil. of Units, saar)	-	0.63	0.62	0.71

WEEK AHEAD

Looking ahead, on Tuesday, August 12, July's CPI and Core CPI figures are due. Economists expect headline inflation to rise about 0.2% month-over-month, with core CPI projected to increase around 0.3%, as tariff-related pressures persist despite moderating energy prices.

On Thursday, August 14, attention shifts to the Producer Price Index (PPI) and weekly jobless claims. PPI is anticipated to show modest gains, while initial jobless claims may tick slightly lower or remain stable, offering further clues on the resilience of the labor market.

Friday's July retail sales report will close out the week and is expected to show continued strength in consumer spending, driven in part by robust vehicle sales and extended promotional events such as Amazon Prime Day.

Together, these data points will help determine whether inflation has peaked, if the labor market is cooling, and how consumers are holding up – all key considerations ahead of the Fed's next policy discussions.

DISCLOSURES AND DEFINITIONS

Economic Indicators:

1. CPI: Consumer Price Index measures the average change in prices paid by consumers for goods and services over time. Source: Bureau of Labor Statistics.
2. Core CPI: Core Consumer Price Index excludes food and energy prices to provide a clearer picture of long-term inflation trends. Source: Bureau of Labor Statistics.
3. PPI: Producer Price Index measures the average change in selling prices received by domestic producers for their output. Source: Bureau of Labor Statistics.
4. Core PPI: Core Producer Price Index excludes food and energy prices to provide a clearer picture of long-term inflation trends. Source: Bureau of Labor Statistics.
5. PCE: Personal Consumption Expenditures measure the average change in prices paid by consumers for goods and services. Source: Bureau of Economic Analysis.
6. Core PCE: Core Personal Consumption Expenditures exclude food and energy prices to provide a clearer picture of long-term inflation trends. Source: Bureau of Economic Analysis.
7. Industrial Production: Measures the output of the industrial sector, including manufacturing, mining, and utilities. Source: Federal Reserve.
8. Mfg New Orders: Measures the value of new orders placed with manufacturers for durable and non-durable goods. Source: Census Bureau.
9. Durable New Orders: Measures the value of new orders placed with manufacturers of durable goods. Source: Census Bureau.
10. Durable Inventories: Measures the value of inventories held by manufacturers for durable goods. Source: Census Bureau.
11. Consumer Confidence (CB, 1985=100): Measures the degree of optimism that consumers feel about the overall state of the economy and their personal financial situation. Source: Conference Board.
12. ISM Manufacturing Report: Measures the economic health of the manufacturing sector based on surveys of purchasing managers. Source: Institute for Supply Management.
13. ISM Non-Manufacturing Report: Measures the economic health of the non-manufacturing sector based on surveys of purchasing managers. Source: Institute for Supply Management.
14. Leading Economic Index: Measures overall economic activity and predicts future economic trends. Source: Conference Board.
15. Building Permits (Mil. of Units, saar): Measures the number of new residential building permits issued. Source: Census Bureau.
16. Housing Starts (Mil. of Units, saar): Measures the number of new residential construction projects that have begun. Source: Census Bureau.
17. New Home Sales (Mil. of Units, saar): Measures the number of newly constructed homes sold. Source: Census Bureau.
18. SA: Seasonally adjusted.
19. SAAR: Seasonally adjusted annual rate.

Market Indices & Indicators:

1. S&P 500: A market-capitalization-weighted index of 500 leading publicly traded companies in the U.S., widely regarded as one of the best gauges of large U.S. stocks and the stock market overall.
2. Dow Jones 30: Also known as the Dow Jones Industrial Average, it tracks the share price performance of 30 large, publicly traded U.S. companies, serving as a barometer of the stock market and economy.
3. NASDAQ: The world's first electronic stock exchange, primarily listing technology giants and operating 29 markets globally.
4. Russell 1000 Growth: Measures the performance of large-cap growth segment of the U.S. equity universe, including companies with higher price-to-book ratios and growth metrics.
5. Russell 1000 Value: Measures the performance of large-cap value segment of the U.S. equity universe, including companies with lower price-to-book ratios and growth metrics.
6. Russell 2000: A market index composed of 2,000 small-cap companies, widely used as a benchmark for small-cap mutual funds.
7. Wilshire 5000: A market-capitalization-weighted index capturing the performance of all American stocks actively traded in the U.S., representing the broadest measure of the U.S. stock market.
8. MSCI EAFE Index: An equity index capturing large and mid-cap representation across developed markets countries around the world, excluding the U.S. and Canada.
9. MSCI Emerging Market Index: Captures large and mid-cap representation across emerging markets countries, covering approximately 85% of the free float-adjusted market capitalization in each country.
10. VIX: The CBOE Volatility Index measures the market's expectations for volatility over the coming 30 days,

often referred to as the «fear gauge.»

11. FTSE NAREIT All Equity REITs: Measures the performance of all publicly traded equity real estate investment trusts (REITs) listed in the U.S., excluding mortgage REITs.
12. S&P U.S. Aggregate Bond Index: Represents the performance of the U.S. investment-grade bond market, including government, corporate, mortgage-backed, and asset-backed securities.
13. 3-Month T-bill Yield (%): The yield on U.S. Treasury bills with a maturity of three months, reflecting short-term interest rates.
14. 10-Year Treasury Yield (%): The yield on U.S. Treasury bonds with a maturity of ten years, reflecting long-term interest rates.
15. 10Y-2Y Treasury Spread (%): The difference between the yields on 10-year and 2-year U.S. Treasury bonds, often used as an indicator of economic expectations.
16. WTI Crude (\$/bbl): The price per barrel of West Texas Intermediate crude oil, a benchmark for U.S. oil prices.
17. Gold (\$/Troy Oz): The price per troy ounce of gold, a standard measure for gold prices.
18. Bitcoin: A decentralized digital currency without a central bank or single administrator, which can be sent from user to user on the peer-to-peer bitcoin network.
